

# Pipestone Academy

## Course List 2019

### ***Hydraulic Control Valves***

Basics with Hands-on Water Lab Practice  
Advanced Applications (Electronic Control, Motorized Pilots, Solenoid Control, Metering, etc)

### ***Isolation & Process Control Valves***

Standards, Design Features and Proper Application

### ***Getting to know Air Valves***

Selection based on Function within a System

### ***Pump Control***

From Check Valves to Motorized Ball

### ***Electric Actuators***

Basic, Electronic and Programmable

### ***Pump Station Design***

Interactive class to probe practical limits of design

### ***Surge Analysis***

Proper Surge Protection Selection
